

TRIAL COLLECTION · SPRING 2027

KAPASA

Upholstery and curtain fabric, woven in Surat.

Kapasa is a Surat weaving mill that turns Citius effect yarns into yarn-dyed dobby upholstery and curtain fabric — 150 cm, 250–550 GSM, MOQ 100 m — for traders, sofa makers and importers who want textured cloth at a plain-cloth lead time.

Public specs, honest status

The trial collection is where the mill learns its looms. Four constructions, one per family we plan to weave, set on the dobby and yarn-dyed with effect yarns from our sister company, Citius Textiles.

Looms commission in December 2026 and sample kits ship from January 2027. Until the first pieces are measured, every width and weight on these pages is a design target, and every test reads 'Testing in progress'.

A value marked “(target)” is a design target for the first weaves. “— (test pending)” means the test has not been run; we publish a measured value only with its lab report or in-house test record. Prices are on enquiry.

Screen colours are approximate. Request a swatch before ordering.

KAP-0101

Photography after the first weaves

SAMPLING · KAP-0101

Trial 01 · Slub Dobby

The baseline construction for the mill: a yarn-dyed dobby upholstery cloth carrying a slub effect yarn from Citius Textiles in the weft. A textured surface that handles like a plain cloth on the loom, which is why it leads the trial collection.

Design code	KAP-0101
Construction	Standard dobby · slub dobby
Width (sellable)	150 cm (target)
Weight	320 GSM (target)
Composition	Polyester-dominant with effect yarn; exact split confirmed after the first weaves
Weave	dobby
Ends × picks per cm	— (test pending)
Warp / weft yarn	Yarn-dyed polyester / Citius slub effect yarn
End uses	Sofa, Armchair, Cushion
MOQ	100 m per design-colourway (stock colour)
Abrasion, Martindale (ISO 12947-2)	— (test pending)
Pilling (ISO 12945-2)	— (test pending)
Lightfastness (ISO 105-B02)	— (test pending)
Seam slippage (ISO 13936-2)	— (test pending)

Working name; the design code KAP-0101 stays fixed.

Spec page: kapasafabrics.com/fabrics/trial-01-slub-dobby

KAP-0102

Photography after the first weaves

SAMPLING · KAP-0102

Trial 02 · Bouclé / Chenille

A dobby upholstery construction carrying Citius bouclé and chenille effect yarns in the weft for a raised, soft-touch surface. Chenille runs are taken against orders until the coarse-weft gripper set-up on our looms is proven.

Design code	KAP-0102
Construction	Bouclé & chenille · bouclé / chenille dobby
Width (sellable)	150 cm (target)
Weight	420 GSM (target)
Composition	Polyester-dominant with effect yarn; exact split confirmed after the first weaves
Weave	dobby
Ends × picks per cm	— (test pending)
Warp / weft yarn	Yarn-dyed polyester / Citius bouclé and chenille effect yarns
End uses	Sofa, Armchair, Headboard, Cushion
MOQ	100 m per design-colourway (stock colour)
Abrasion, Martindale (ISO 12947-2)	— (test pending)
Pilling (ISO 12945-2)	— (test pending)
Lightfastness (ISO 105-B02)	— (test pending)
Seam slippage (ISO 13936-2)	— (test pending)

Working name; the design code KAP-0102 stays fixed.

Spec page: kapasafabrics.com/fabrics/trial-02-boucle-chenille

KAP-0103

Photography after the first weaves

SAMPLING · KAP-0103

Trial 03 · Heavy Dobby

The heaviest of the trial constructions: a dense dobby weave with a heavier effect weft, meant for sofa fronts and seating where weight and cover matter. Contract use waits for abrasion and flammability results; until then every test on this page reads 'Testing in progress'.

Design code	KAP-0103
Construction	Heavy contract · heavy dobby
Width (sellable)	150 cm (target)
Weight	550 GSM (target)
Composition	Polyester-dominant with effect yarn; exact split confirmed after the first weaves
Weave	dobby
Ends × picks per cm	— (test pending)
Warp / weft yarn	Yarn-dyed polyester / Heavier Citius effect yarn
End uses	Sofa, Armchair, Contract
MOQ	100 m per design-colourway (stock colour)
Abrasion, Martindale (ISO 12947-2)	— (test pending)
Abrasion, Wyzenbeek (ASTM D4157)	— (test pending)
Pilling (ISO 12945-2)	— (test pending)
Lightfastness (ISO 105-B02)	— (test pending)
Seam slippage (ISO 13936-2)	— (test pending)
Flammability	— (test pending)

Working name; the design code KAP-0103 stays fixed.

Spec page: kapasafabrics.com/fabrics/trial-03-heavy-dobby

KAP-0104

Photography after the first weaves

SAMPLING · KAP-0104

Trial 04 · FR-Yarn Drapery

A lighter dobby curtain cloth woven with an inherently flame-retardant polyester yarn from Citius Textiles, so no topical FR chemistry is needed. Flammability is not yet tested and is not claimed until a lab report is on file.

Design code	KAP-0104
Construction	FR-yarn drapery · FR-yarn dobby
Width (sellable)	150 cm (target)
Weight	250 GSM (target)
Composition	FR polyester with effect yarn; exact split confirmed after the first weaves
Weave	dobby
Ends × picks per cm	— (test pending)
Warp / weft yarn	Polyester / Citius inherently-FR polyester yarn
End uses	Curtain, Drapery, Hospitality
MOQ	100 m per design-colourway (stock colour)
Lightfastness (ISO 105-B02)	— (test pending)
Dimensional change (ISO 5077)	— (test pending)
Flammability	— (test pending)

Working name; the design code KAP-0104 stays fixed.

How to buy

Stock colourway	100 m per design-colourway
Custom colour, yarn-dyed to order	300 m per colour (500 m with a dedicated warp)
Export, finished fabric	500 m per design in 3–5 colourways, at least 200 m each
Grey (loom-state) fabric	2,000 m per construction
Swatches	Up to six A4 swatches free (traders, sofa makers); swatch card + hanger set of eight designs free (importers)
Lab dips / strike-offs	7–10 / 10–15 working days
Tolerances	Width ± 2 cm · weight $\pm 5\%$ · shade grade 4 · quantity $\pm 5\%$ · max. 20 points per 100 m ² (4-point)
Delivery	Ex-works Palsana (India); FOB Hazira or Nhava Sheva, CIF on request (export); no DDP
Payment	Domestic: advance as confirmed, balance within 30 days. Export: first orders on advance TT or LC

All terms are subject to the signed order confirmation.
